DAVID SANDERSON / FULLSTACK DEVELOPER

PROFESSIONAL SUMMARY

Albuquerque-based Fullstack Developer with a strong passion for designing, building, and deploying custom websites/software applications. Most familiar with the React(GatsbyJS!) but also proficient with Node, Express, C#, CSS, HTML, PHP(Laravel) and willing to learn new technologies . Resilient and curious problem solver with 2 years of development experience, excellent interpersonal skills, and the tenacity to solve difficult problems.

RECENT EXPERIENCE

Junior Software Engineer, iTeam Consulting

February 2020 - Present

- Migrate multiple legacy websites to the JAM stack using GatsbyJS.
- Maintain and regularly update legacy ASP.NET Web applications (MVC 5.0 and Razor Pages).
- Proactive site maintenance to Wordpress sites (update content, plugins, and create monthly backups).
- Migrate WordPress sites to new hosting providers and update DNS records.
- Create wireframes using Figma inspired by a style guide
- Implement designs I create or am provided.
- Created a Gatsby application that sources data from Sharepoint Lists to programmatically create web pages.
- Write units tests using Jest and xUnit.

TECHNOLOGIES USED: React, Gatsby, Netlify, NetlifyCMS, KeystoneJS, Ghost, Jest, GQL, C#, Docker, TailwindCSS, FileZilla, Emotion, Wordpress, various ORMs

Resident Web Developer, ActivateNM (Startup Incubator)

October 2019 - February 2020

- Provided technical support and consultation to early-stage startups going through the accelerator program.
- Drafted and executed project charters. Designed and deployed 3 websites(Gatsby and Wordpress sites) and 1 database.

TECHNOLOGIES USED: React, Gatsby, GQL, WordPress, MySQL, MySQL Workbench
